The purpose of this addendum is to clarify several Drainage Items on the Bid Sheet and plans.

1. **All Drop Inlets are to be DI-2B six feet in length (L=6').** The depth varies as per the plans. Plans have been included to indicate the size and location of the three boxes. The price is to include the removal and disposal of the existing storm structures. All other terms and conditions for the inlets remain the same
2. A Bid Item has been added to the Bid Sheet for the installation of **12" CMP**. A description of the Item is below.

The Price per linear foot for installation of 12" diameter asphalt-coated corrugated metal piping to the specified depth. Price to include excavation, subgrade preparation, backfill, and any specified bedding. Price to include all connections to existing piping and proposed structures. Price includes all incidental traffic controls and signage. Price includes all materials, labor, and equipment.

3. A Bid Item has been added to "**Modify the Existing Manhole**". A description of the Bid item is below:

The lump sum price to remove existing 12" CMP as necessary and modify existing storm sewer manhole to accept proposed 15" RCP. Price to include all wet-sawcutting, excavation, subgrade preparation, modifications to the existing manhole to accept 15" RCP, removal and disposal of existing 12" CMP, backfill, and installation of invert. Price includes all incidental traffic controls and signage. Price includes all materials, labor, and equipment

4. All other terms and conditions for the Invitation for Bid, dated February 28, 2002, remain the same.
5. **All bidders should include a statement with their bid indicating they received Addendum #1 dated March 12, 2002.**

Included, please find the corrected plans for the drainage work, a corrected Bid Sheet, and the VDOT specs for the DI-2B Drop Inlet.
